Base station
QNT307-00

Quanturi

The probes communicate with an IP44 certified base station, which transfers the temperature measurements to the Cloud.

The temperatures can be checked at any given time via the quanturi.app service. The base station contains a pre-configured SIM-card.

Usage	-25 to +85 °C
Radio frequency	433,5 MHz
Reading distance in free space	200m
Server communication Supported Mobile	SIM card included and configured
Network	2G to 4G
RF Standard	ETSI EN 300 220-1
Dimensions	325.3 x 150 x 62 mm
Weight	0.8 kg
Power supply	220 V
Enclosure	IP44
Power plug	IP44
Reference	QNT307-00
GTIN -13	6430065612506
