

UniExSS.

Technical data:

- ATEX certified
- Sliding tube in stainless steel
- High operating temperature resistance
- Use in high operating pressure possible
- Up to 6 switching points for N.C. contact, N.O. contact or changeover contact
- Wide range of EX proof designs
- Temperature switch or temperature sensor is optionally possible

Our devices of the UNIEX SS series may only be operated in connection with an Ex barrier / switch amplifier.

Application:

- Use of devices in almost all kind of fluids
- Measurement of liquid level for shipbuilding, off-shore, chemical and petrochemical industry, machinery and plant engineering, hydraulic power packs, cooling systems, potable water treatment , food and beverage industry, power plants and other power systems
