

CAP3600EX-O

Opacimeter

Used in workshops, car and truck vehicle inspection service centres, the CAP3600 O is a new generation, ergonomic, efficient and connected opacimeter.

The opacimeter checks the smoke emitted by diesel engines.

- Touch screen (21' or 27')
- Software: S3600
- Wireless connection to peripherals
- PC Interface Compact totem Wireless connectivity
- Remote control
- Data security : OTC Lan : GIEG Lan
- Complies with NFR10 025
- Options: mobile base, EURO5-6 cell, remote control, infrared temperature sensor, protective cover

OPTIONS

- CAP1330 | IR Thermometer
- CAP1000 | Remote Control
- CAP4350 | EOBD Reader
- CAP8520 | Tachometer, RPM
- CAP8533 | Vibration Tachometer and Thermometer
- CAP1XXX | Protective cover
- PRO3017 | Mobile base plate

SPECIFICATIONS

- Transportable measuring cell
- Wireless connectivity (Bluetooth)
- Measurement of exhaust gas opacity
- Automatic Zero
- No calibration
- Light and robust

NORMS

- ISO 11614
- NFR 10 025
